

SALES BULLETIN No 019

81/503 Feeder Mechanism – Service Exchange

Figure 1. An overhauled 503 10:1 ratio high speed feeder mechanism

Figure 2. Part built mechanism

Our feeder mechanism service exchange service is open for both 81 and 503 feeders with either 5" or 7" stroke and 10:1 or 20:1 gearbox ratio.

How the service works

- ☼ We identify which Feeder type you require and provide you with a quotation.
- ☼ Following a purchase order we build your feeder and deliver to your site.
- ☼ We invoice on dispatch.
- ☼ When replacing the feeder, you send your old feeder to D A Oldfield Ltd.

All our feeders are fully stripped down, cleaned, painted and rebuilt back to a new standard. We fit 80% new parts, literally just using the original castings! The machines are fully fitted with Lincoln lubrication making them ready to install onto a live line.
