## SALES BULLETIN No 046 Lehr Belt Cleaning Rollers

The primary purpose of the lehr belt cleaning rollers is to clean all the small glass particles and burnt grease off the lehr belt to prevent the particles coming in contact with the new formed glass container bases, this takes place at the cold end of the lehr.

- ⊗ We can source and **supply original** manufactured spiral wire brush rollers for cleaning debris from lehr belts, including Stein Atkinson Sturdy lehrs
- ⊗ Through continuous use the spiral wire brushes wear and reduce in diameter and become ineffective.
- ⊗ Replacements can be made to the **same specification** of wire, outside diameter of roller and stub shafts.
